

“The Earth is what we all have in common.”

- Wendell Berry

Our planet is literally of life supporting importance to all of us, and we want to remind all of our visitors to respect and help protect what is our dear earth.

We at [Hotel Indigo Brussels City](#) and [Serra](#) are focusing on numerous actions to reduce energy and water consumption and to increase resource efficiency in operation, production, and distribution. Therefore, we aim to increase awareness towards our guests and colleagues.

Change needs to happen now, and this is why the entire Hotel- and Serra teams are invested to achieve the **Green Key certification**.

In our green spaces, throughout the hotel and beyond, you will enjoy nature's finest foods and drinks. At Serra, you can experience natural goodness, an oasis in the middle of the hustle and bustle of Brussels. We use mostly ingredients that are seasonal, local and organic from trusted farms, growers and artisans. **To us, good food means it'll do good for both you and the planet, too.**

It can be hard to find nature in a city, and we count ourselves lucky to have the neighbouring Botanical Garden. These gardens were the source of inspiration when creating our hotel and Serra. Our interiors radiate green nature. With over 300 plants it's a great space to unwind and re-energise, to meet, work and celebrate.

The entire team would love to share more information, so you can explore the greener side of hospitality and of course of our beautiful capital, Brussels one of the world's greenest cities.
